

Articles of interest in other COB journals

From *Journal of Cell Science*

**Overexpression of EPHA2 receptor destabilizes adherens junctions via a RhoA-dependent mechanism**

Wei Bin Fang, Renée C. Ireton, Guanglei Zhuang, Takamune Takahashi, Al Reynolds and Jin Chen

Fang, W. B. et al. 2008. *J. Cell Sci.* doi:10.1242/jcs.017145

**Membrane targeting of WAVE2 is not sufficient for WAVE2-dependent actin polymerization: a role for IRSp53 in mediating the interaction between Rac and WAVE2**

Wassim Abou-Kheir, Beth Isaac, Hideki Yamaguchi and Dianne Cox

Abou-Kheir, W. et al. 2008. *J. Cell Sci.* doi:10.1242/jcs.010272
