

Subject Index

Amphibia

- axolotl
 - morphogenesis of limb blastema – relationship between pattern and form: HOLDER & REYNOLDS 165

Asialoglycoprotein receptor

- on isolated foetal rat hepatocytes: CONTI DEVIRGILIIS, DINI & RUSSO-CAIA 41

Autonomous cortical activity

- in mouse eggs controlled by cytoplasmic clock: WAKSMUNDZKA, KRYSIAK, KARASIEWICZ, CZOŁOWSKA & TARKOWSKI 77

Axolotl

- larvae
 - skin-gland spacing pattern: HOLDER & GLADE 97
- limb blastema
 - relationship between pattern and form: HOLDER & REYNOLDS 165

Basement membrane

- labelling in living chick embryo during gastrulation: SANDERS 113

Bile duct cells

- origin of in mouse embryos: SHIOJIRI 25

Cell adhesion

- in chick segmental plate resulting in meristic pattern: CHENEY & LASH 1

Cell aggregative behaviour

- of rat vibrissa dermal papilla *in vivo* and *in vitro*: JAHODA & OLIVER 211

Cell death

- during morphogenesis of digits of duck embryo webbed feet: HURLE & FERNANDEZ-TERAN 201

Chick

- embryo
 - cell – cell adhesion in segmental plate: CHENEY & LASH 1
 - epithelial induction of osteogenesis in mandibular mesenchyme: VAN EXAN & HALL 225
 - connective tissue differentiation in explanted somites: SWALLA & SOLURSH 243
 - labelling of basement membrane during gastrulation: SANDERS 113

- miniaturized somites: BELLAIRS & VEINI 183

Chondrogenesis

- in explanted chick somites: SWALLA & SOLURSH 243

Cleavage

- DNA replication and gene expression in mouse embryos: BOLTON, OADES & JOHNSON 139

Connective tissue

- differentiation in chick explanted somites: SWALLA & SOLURSH 243

Cortical activity

- in mouse eggs controlled by a cytoplasmic clock: WAKSMUNDZKA, KRYSIAK, KARASIEWICZ, CZOŁOWSKA & TARKOWSKI 77

Coupling junctions

- in preimplantation mouse embryos: GOODALL & JOHNSON 53

Culture

- of explanted chick somites–differentiation of connective tissues: SWALLA & SOLURSH 243
- of rat vibrissa dermal papilla cells: JAHODA & OLIVER 211

Cytoplasmic clock

- controlling autonomous cortical activity in mouse eggs: WAKSMUNDZKA, KRYSIAK, KARASIEWICZ, CZOŁOWSKA & TARKOWSKI 77

Deoxyribose nucleic acid (DNA)

- replication in mouse embryos: BOLTON, OADES & JOHNSON 139

Dermal papilla

- cell aggregative behaviour *in vivo* and *in vitro*: JAHODA & OLIVER 211

Duck

- embryo
 - interdigital membranes during morphogenesis of webbed feet: HURLE & FERNANDEZ-TERAN 201

Egg

- mouse
 - autonomous cortical activity controlled by cytoplasmic clock: WAKSMUNDZKA, KRYSIAK, KARASIEWICZ, CZOŁOWSKA & TARKOWSKI 77

- Electron microscope**
evidence for asialoglycoprotein receptors
on rat hepatocytes: CONTI DEVIRGILIIS,
DINI & RUSSO-CAIA 41
- Epithelial induction**
of osteogenesis in embryonic chick
mandibular mesenchyme: VAN EXAN &
HALL 225
- Epithelio-mesenchymal interface**
in interdigital membranes of webbed feet
of duck embryo: HURLE & FERNANDEZ-
TERAN 201
- Fibroblasts**
of rat skin cultured *in vivo* and *in vitro*:
JAHODA & OLIVER 211
- Field shape**
and pattern formation in axolotl blastema:
HOLDER & REYNOLDS 165
- Gap junctions**
in preimplantation stages of mouse em-
bryo: GOODALL & JOHNSON 53
- Gastrula**
chick
control of somite segmentation:
BELLAIRS & VEINI 183
- Gastrulation**
of chick embryo – labelling of basement
membrane: SANDERS 113
- Gene expression**
cleavage and DNA replication in mouse
embryos: BOLTON, OADES & JOHNSON
139
- Hepatocytes**
differentiation into intrahepatic bile duct
cells: SHIOJIRI 25
isolated from foetal rats–asialoglyco-
protein receptors: CONTI DEVIRGILIIS,
DINI & RUSSO-CAIA 41
- Identified neuron**
in leech nervous system: KUWADA 125
- Interdigital membrane**
during morphogenesis of digits of duck em-
bryo webbed foot: HURLE & FERNANDEZ-
TERAN 201
- Intrahepatic bile ducts**
origin of in mouse embryos: SHIOJIRI 25
- Leech**
motor neuron
normal and abnormal development:
KUWADA 125
- Limb blastema**
of axolotl – relationship between pattern
and form: HOLDER & REYNOLDS 165
- Limb development**
of duck embryo: HURLE & FERNANDEZ-
TERAN 201
- Liver**
embryonic mouse
origin of intrahepatic bile duct cells:
SHIOJIRI 25
- Mandibular mesenchyme**
epithelial induction of osteogenesis in
chick embryos: VAN EXAN & HALL 225
- Mesenchyme**
chick embryonic
epithelial induction of osteogenesis: VAN
EXAN & HALL 225
- Midbody**
presence in preimplantation mouse em-
bryo, role in communication: GOODALL &
JOHNSON 53
- Morula**
mouse
intercellular couplings: GOODALL & JOHN-
SON 53
- Motor neuron**
in leech nervous system: KUWADA 125
- Mouse**
egg
autonomous cortical activity controlled
by cytoplasmic clock: WAKSMUNDZKA,
KRYSIK, KARASIEWICZ, CZOŁOWSKA &
TARKOWSKI 77
embryo
cleavage, DNA replication and gene ex-
pression: BOLTON, OADES & JOHNSON
139
intercellular couplings in preimplanta-
tion stages: GOODALL & JOHNSON 53
- Nervous system**
normal and abnormal development of an
identified leech neurons: KUWADA 125
- Neuron**
identified in leech nervous system:
KUWADA 125
- Neuron development**
in leech longitudinal muscles: KUWADA
125
- Papilla cells**
aggregative behaviour *in vivo* and *in vitro*
culture: JAHODA & OLIVER 211
- Parthenogenetic activity**
in mouse egg cortex: WAKSMUNDZKA,
KRYSIK, KARASIEWICZ, CZOŁOWSKA &
TARKOWSKI 77

Pattern formation

in axolotl limb blastema: HOLDER & REYNOLDS 165

in axolotl skin gland spacing: HOLDER & GLADE 97

in chick segmental plate: CHENEY & LASH 1

Polyadenylation

and transcription in early quail embryo: OLSZAŃSKA, KLUDKIEWICZ & LASSOTA 11

Preprogramming

in control of somite segmentation in chick gastrula: BELLAIRS & VEINI 183

Rat

dermal papillae

aggregative behaviour *in vivo* and *in vitro*: JAHODA & OLIVER 211

foetus and adult

asialoglycoprotein receptors on isolated hepatocytes: CONTI DE VIRGILIIS, DINI & RUSSO-CAIA 41

Replication

of DNA in mouse embryos: BOLTON, OADES & JOHNSON 139

Ribonucleic acid (RNA)

during early development of quail embryo—mRNA and tRNA: OLSZAŃSKA, KLUDKIEWICZ & LASSOTA 11

Segmentation

control in gastrula stages of the chick embryo: BELLAIRS & VEINI 183

Segmental plate

of chick—increase in cell-cell adhesion results in meristic pattern: CHENEY & LASH 1

Skin glands

in axolotl—formation of spacing pattern: HOLDER & GLADE 97

Somite

differentiation of connective tissue in chick: SWALLA & SOLURSH 243

segmentation in chick gastrula: BELLAIRS & VEINI 183

Somitogenesis

in chick embryo segmental plate: CHENEY & LASH 1

Spacing pattern

in axolotl skin glands: HOLDER & GLADE 97

Transcription

and polyadenylation processes in quail embryos: OLSZAŃSKA, KLUDKIEWICZ & LASSOTA 11

Transfilter tissue recombinations

study of epithelial induction of osteogenesis in chick embryo mandible: VAN EXAN & HALL 225

Vibrissa

dermal papilla cell aggregative behaviour *in vivo* and *in vitro*: JAHODA & OLIVER 211

Vitamin A

effect on pattern formation in axolotl blastema: HOLDER & REYNOLDS 165
