

Subject Index

(ADP-ribose) transferase

activity and chondrocytic differentiation in chick limb bud cells: NAKANISHI & UYEKI 163

Alphafetoprotein

synthesis in human foetal yolk sack and organs: SHI, HOPKINS, THOMPSON, HEATH, LUKE & GRAHAM 191

Amphibia

newt

cell surface changes during cleavage of eggs: OHSIMA & KUBOTA 21

Apolipoprotein

synthesis in human foetal yolk sack and organs: SHI, HOPKINS, THOMPSON, HEATH, LUKE & GRAHAM 191

Autoradiography

of development of germ cells in polychaete: EMANUELSSON & ANEHUS 151

Benzamide

effect on chondrocytic differentiation in chick limb bud cells: NAKANISHI & UYEKI 163

Blastema

formation during regeneration and wound healing in cockroach leg: TRUBY 177

Brain

human

synthesis of apolipoproteins and other proteins: SHI, HOPKINS, THOMPSON, HEATH, LUKE & GRAHAM 191

Cell culture

of female germ cells of polychaete *Ophryotrocha*: EMANUELSSON & ANEHUS 151

Cell death

during formation of free digits in avian limb bud: HURLE, COLVEE & FERNANDEZ-TERAN 239

Cell lineage

of muscles of *Drosophila* head: RAGHAVAN & PINTO 285

Cell numbers

during neurulation in rat: TUCKETT & MORRISS-KAY 111

Cell surface

changes during cleavage of newt eggs: OHSIMA & KUBOTA 21

Chick

embryo

effects of cytochalasin B on intestine in organ culture: NODA 47

protein synthetic patterns: LOVELL-BADGE, EVANS & BELLAIRS 65

role of ZPA in development of wing buds in wingless mutants: WILSON & HINCHLIFFE 271

vascular regression during formation of free digits in avian limb bud: HURLE, COLVEE & FERNANDEZ-TERAN 239

limb bud

effect of benzamide on chondrocytic differentiation: NAKANISHI & UYEKI 163

oviduct

growth stimulation by androgens: GRAU, REICHHART & THIEBOLD 81

wing bud

with dorsoventral or anteroposterior axis reversed – axon behaviour: STIRLING & SUMMERBELL 251

Chimaeras

chick–quail

used to study behaviour of growing axons in chick wing buds: STIRLING & SUMMERBELL 251

mouse

clonal analysis of intestinal crypt populations: SCHMIDT, GARBUTT, WILKINSON & PONDER 121

Chondrocytes

differentiation in chick limb bud cell culture: NAKANISHI & UYEKI 163

Cleavage

cell surface changes in newt eggs: OHSIMA & KUBOTA 21

factors responsible for synchrony in *Xenopus* embryos: SHINAGAWA 33

Clones

in intestinal crypt populations in mouse chimaeras: SCHMIDT, GARBUTT, WILKINSON & PONDER 121

Cockroach (see *Periplaneta americana*)

Cranial neuroepithelial cells

kinetic behaviour during neurulation in rat: TUCKETT & MORRISS-KAY 111

Critical point

in moult cycle of cockroach for wound healing and regeneration: TRUBY 177

Culture

of chick embryonic intestine – effects of cytochalasin B: NODA 47

Cyclic activities

and synchronous cleavage in *Xenopus* embryos: SHINAGAWA 33

Cynopus (Triturus) pyrrhogaster

cell surface changes during cleavage of eggs: OHSHIMA & KUBOTA 21

Cytochalasin B

effects on previllous ridges in chick embryonic intestine: NODA 47

Cytoplasmic cycle

and synchronous cleavage in *Xenopus* embryos: SHINAGAWA 33

Digit

formation in avian limb bud: HURLE, COLVEE & FERNANDEZ-TERAN 239

***Dolichos biflorus* agglutinin**

as marker in chimaeric intestinal crypt populations: SCHMIDT, GARBUTT, WILKINSON & PONDER 121

Drosophila melanogaster

cell lineage of muscles of head: RAGHAVAN & PINTO 285

wing discs

pattern regulation in fragments which show variable wound healing: DALE & BOWNES 95

Duck

embryo

vascular regression during formation of free digits in avian limb bud: HURLE, COLVEE & FERNANDEZ-TERAN 241

Ectoderm

chick

protein synthetic patterns: LOVELL-BADGE, EVANS & BELLAIRS 65

Electron microscopy

of effects of cytochalasin B on chick embryonic intestine: NODA 47

Endoderm

chick

protein synthetic patterns: LOVELL-BADGE, EVANS & BELLAIRS 65

***engrailed* (*en*¹⁰)**

as cell lineage marker of muscles in head of *Drosophila*: RAGHAVAN & PINTO 285

Eye

translocation

in *Xenopus* – distribution of fibres in optic tract: TAYLOR, WILLSHAW & GAZE 225

Fibre pathways

in optic tract after contralateral eye translocation in *Xenopus*: TAYLOR, WILLSHAW & GAZE 225

Germ cells

in polychaete *Ophryotrocha*: EMANUELSSON & ANEHUS 151

Growth stimulation

of immature chick oviduct by androgens: GRAU, REICHHART & THIEBOLD 81

Gut

human

synthesis of apolipoproteins and other proteins: SHI, HOPKINS, THOMPSON, HEATH, LUKE & GRAHAM 191

Human

embryo

synthesis of apolipoproteins and other proteins by yolk sack: SHI, HOPKINS, THOMPSON, HEATH, LUKE & GRAHAM 191

Imaginal discs

pattern formation in fragments which show variable wound healing: DALE & BOWNES 95

Innervation

of chick wing bud with axes reversed: STIRLING & SUMMERBELL 251

Insect

leg regeneration and wound healing: TRUBY 177

Intestine

effects of cytochalasin B on previllous ridges in chick embryo: NODA 47

Intestinal crypts

in mouse aggregation chimaeras: SCHMIDT, GARBUTT, WILKINSON & PONDER 121

Leg regeneration

and wound healing in the cockroach: TRUBY 177

Limb bud

chick

effect of benzamide on chondrocytic differentiation: NAKANISHI & UYEKI 163

Limb development

comparative study of chick and duck embryos: HURLE, COLVEE & FERNANDEZ-TERAN 239

role of ZPA in development of wing buds in wingless mutant chicks: WILSON & HINCHLIFFE 271

- Liver**
 human
 synthesis of apolipoproteins and other proteins: SHI, HOPKINS, THOMPSON, HEATH, LUKE & GRAHAM 191
- Locust**
 sensory neurons
 development of projections and connections from transplantations: ANDERSON 207
- Microvillous-like processes**
 in chick embryonic intestine cultures: NODA 47
- Mitosis**
 in cranial neural epithelium of rat: TUCKETT & MORRISS-KAY 111
- Motor axons**
 in chick wing buds with axes reversed: STIRLING & SUMMERBELL 251
- Mouse**
 chimaera
 clonal analysis of intestinal crypt populations: SCHMIDT, GARBUTT, WILKINSON & PONDER 121
 embryo
 effects of some Robertsonian chromosome combinations: REDI, GARAGNA, HILSCHER & WINKING 1
- Muscles**
 cell lineage in *Drosophila* head: RAGHAVAN & PINTO 285
- Mutant**
 wingless (*ws*)
 role of ZPA in development of wing buds in chick embryos: WILSON & HINCHLIFFE 271
- Mutation**
engrailed (*en¹⁰*) in *Drosophila*: RAGHAVAN & PINTO 285
- Neural tube**
 kinetic behaviour during neurulation in rat: TUCKETT & MORRISS-KAY 111
- Neuronal projections**
 and connections from transplanted locust sensory neurons: ANDERSON 207
- Newt (see *Cynopus pyrrhogaster*)**
- Nicotinamide adenine dinucleotide (NAD)**
 levels in chick limb bud cell culture in presence of benzamide: NAKANISHI & UYEKI 163
- Oogenesis**
 in polychaete *Ophryotrocha*: EMANUELSSON & ANEHUS 151
- Ophryotrocha labronica***
 development of germ cells *in vitro*: EMANUELSSON & ANEHUS 151
- Oviduct**
 growth stimulation in immature chick by androgens: GRAU, REICHHART & THIEBOLD 81
- Pattern regulation**
 in fragments of *Drosophila* wing discs: DALE & BOWNES 95
- Periplaneta americana***
 leg regeneration and wound healing: TRUBY 177
- Polychaete (see *Ophryotrocha labronica*)**
- Polypeptides**
 synthetic patterns in tissues of early chick embryos: LOVELL-BADGE, EVANS & BELLAIRS 65
- Previllous ridges**
 effects of cytochalasin B in chick embryonic intestine: NODA 47
- Proliferation**
 in intestinal crypts in mouse chimaeras: SCHMIDT, GARBUTT, WILKINSON & PONDER 121
 of chick limb bud chondrocytes in culture with benzamide: NAKANISHI & UYEKI 163
- Rat**
 embryo
 kinetic behaviour of cranial neural cells during neurulation in rat: TUCKETT & MORRISS-KAY 111
- Regeneration**
 and wound healing in the cockroach leg: TRUBY 177
- Reversal**
 of axes in chick wing buds – behaviour of growing axons: STIRLING & SUMMERBELL 251
- Ribonucleic acid (RNA)**
 rare hnRNAs
 transcription in sea urchin embryos and coelomocytes: KLEENE & HUMPHREYS 131
 rare maternal RNAs
 transcription in sea urchin embryos and coelomocytes: KLEENE & HUMPHREYS 131
- RNA:DNA hybridization**
 in sea urchin derivatives: KLEENE & HUMPHREYS 131
- Robertsonian chromosome**
 effects on seminiferous epithelium of the mouse: REDI, GARAGNA, HILSCHER & WINKING 1

Scanning electron microscopy (SEM)

of cell surface changes during cleavage of
newt eggs: OHSHIMA & KUBOTA 21

Sea urchin

blastulae
transcription rare hnRNAs and maternal
RNAs: KLEENE & HUMPHREYS 131

Seminiferous epithelium

effects of some Robertsonian chromosome
combinations in mouse: REDI, GARAGNA,
HILSCHER & WINKING 1

Sensory neurons

transplanted in locust – projections and
connections: ANDERSON 207

Sertoli cells

effects of some Robertsonian chromosome
combinations in mouse: REDI, GARAGNA,
HILSCHER & WINKING 1

Somites

chick
protein synthetic patterns: LOVELL-BADGE,
EVANS & BELLAIRS 65

Spermatogenesis

effects of some Robertsonian chromosome
combinations in mouse: REDI, GARAGNA,
HILSCHER & WINKING 1

Spermatocyte

effects of some Robertsonian chromosome
combinations in mouse: REDI, GARAGNA,
HILSCHER & WINKING 1

Stomach

human
synthesis of apolipoproteins and other
proteins: SHI, HOPKINS, THOMPSON,
HEATH, LUKE & GRAHAM 191

Testosterone

growth stimulation of immature chick
oviduct: GRAU, REICHHART & THIEBOLD 81

Transcription

of rare hnRNAs and maternal RNAs in sea
urchins: KLEENE & HUMPHREYS 131

Transferrin

synthesis in human foetal yolk sack and
organs: SHI, HOPKINS, THOMPSON, HEATH,
LUKE & GRAHAM 191

Translocation

of eye in *Xenopus* – fibre pathways in optic
tract: TAYLOR, WILLSHAW & GAZE 225

Transplantation

of locust sensory neurons – projections and
connections: ANDERSON 207

Triturus (see *Cynopus*)**Trophoblast**

human

synthesis of apolipoproteins and other
proteins: SHI, HOPKINS, THOMPSON,
HEATH, LUKE & GRAHAM 191

Two-dimensional electrophoresis

protein synthetic patterns of tissues of
early chick embryos: LOVELL-BADGE, EVANS
& BELLAIRS 65

Vagina

as target for growth stimulation in chick by
androgens: GRAU, REICHHART &
THIEBOLD 81

Vascular regression

during formation of free digits in avian
limb bud: HURLE, COLVEE & FERNANDEZ-
TERAN 239

Visual projections

from translocated eyes in *Xenopus*: TAYLOR,
WILLSHAW & GAZE 225

Wing bud

chick
with dorsoventral or anteroposterior axis
reversed – axon behaviour: STIRLING &
SUMMERBELL 251

Wingless (ws)

mutant in chick – role of ZPA in
development of wing buds: WILSON &
HINCHLIFFE 271

Wound healing

and regeneration in cockroach leg:
TRUBY 177
pattern regulation in fragments of
Drosophila wing discs: DALE &
BOWNES 95

Xenopus laevis

embryo
synchronous cleavage and cytoplasmic
cycle: SHINAGAWA 33
visual system
fibre pathways after contralateral eye
translocation: TAYLOR, WILLSHAW &
GAZE 225

Yolk sack

human
synthesis of apolipoproteins and other
proteins: SHI, HOPKINS, THOMPSON,
HEATH, LUKE & GRAHAM 191

Yolk synthesis

in polychaete *Ophryotrocha*: EMANUELSSON &
ANEHUS 151

ZPA

role in development of wing buds of
wingless mutant chick embryos: WILSON &
HINCHLIFFE 271
