

Subject Index

Acetylcholinesterase

development in muscle cells isolated from ascidian embryos: MITA-MIYAZAWA, IKEGAMI & SATOH 1

Adhesion

molecules: evidence for role of saccharides in cell interactions: RASTAN, THORPE, SCUDDER, BROWN, GOOI & FEIZI 115
of mouse primordial germ cells to follicular and Sertoli cells: DE FELICI & SIRACUSA 87

Agglutinin

allelic patterns of binding of *Dolichos* lectins in mice strains: PONDER, FESTING & WILKINSON 229

Agouti

expression of mouse genes involved in pigment production: STEPHENSON & HORNBY 65

Amino acids

in rat embryos undergoing organogenesis: ROWE & KALAIZIS 137

Antigens

used to study cell interactions in preimplantation mouse embryos: RASTAN, THORPE, SCUDDER, BROWN, GOOI & FEIZI 115

Apical ectodermal ridge

role in caudal fin morphogenesis in Zebra fish: DANE & TUCKER 145

Ascidian

embryo
acetylcholinesterase development in presumptive muscle cells: MITA-MIYAZAWA, IKEGAMI & SATOH 1

Basal body

in oral development in *Stentor*: DE TERRA 249
DE TERRA 241

Basal lamina

development in pupoid foetus (*pf/pf*) mouse mutants: FISHER & KOLLAR 47

Blood islands

formation *in vitro* from embryonic stem cells: DOETSCHMAN and others 27

Brachydanio rerio (see Zebra fish)

Carbohydrate antigens

used to study cell interactions in preimplantation mouse embryos: RASTAN, THORPE, SCUDDER, BROWN, GOOI & FEIZI 115

Cell adhesion

in preimplantation embryos – role of saccharides: RASTAN, THORPE, SCUDDER, BROWN, GOOI & FEIZI 115

Cell death

during development of *fused* – embryos of *Drosophila*: MARTINEZ-ARIAS 99

Cell division

during oral development in ciliate *Stentor*: DE TERRA 249

Cell interaction

between mouse primordial germ cells and follicular and Sertoli cells: DE FELICI & SIRACUSA 87
in preimplantation embryos – role of saccharides in adhesion: RASTAN, THORPE, SCUDDER, BROWN, GOOI & FEIZI 115

Chick

wing bud
maps of strength of positional signalling activity: HONIG & SUMMERBELL 163

Ciliate

basal body assembly and oral development in *Stentor*: DE TERRA 249
inhibition of oral development in *Stentor*: DE TERRA 241

Ciona intestinalis

acetylcholinesterase development in muscle cells isolated from embryos: MITA-MIYAZAWA, IKEGAMI & SATOH 1

Cleavage

regulation in first cell cycle in mouse embryo: HOWLETT & BOLTON 175

Cranial development

in rat embryo – SEM and kinetic study: TUCKETT, LIM & MORRISS-KAY 215

Cytoskeleton

oral development in *Stentor*: DE TERRA 241
DE TERRA 249

Deoxyribose nucleic acid (DNA)

quantal replication cycle for tissue specific enzyme development: MITA-MIYAZAWA, IKEGAMI & SATOH 1
synthesis and regulation in first cell cycle in mouse embryo: HOWLETT & BOLTON 175

Dermal–epidermal junction

in pupoid foetus mutant mice: FISHER & KOLLAR 47

Dictyostelium discoideum

pH affects fruiting and slug orientation:
BONNER, HAY, JOHN & SUTHERS 207

Differential gene expression

in mouse embryos – genes involved in pigment production: STEPHENSON & HORNBY 65

***Dolichos biflorus* lectin**

allelic patterns of binding in inbred strains of mice: PONDER, FESTING & WILKINSON 229

Dominant spotting (*W*) locus

expression of mouse genes involved in pigment production: STEPHENSON & HORNBY 65

Drosophila melanogaster

development of *fused*⁻ embryos: MARTINEZ-ARIAS 99

origin of pattern duplications in segment polarity mutants: MARTINEZ-ARIAS & INGHAM 129

Duplication

after grafting of tissue in chick wing bud: HONIG & SUMMERBELL 163

Embryonic stem cells (ES)

in vitro development of visceral yolk sac etc: DOETSCHMAN and others 27

Endo- β -galactosidase

used to study cell interactions in preimplantation mouse embryos: RASTAN, THORPE, SCUDDER, BROWN, GOOI & FEIZI 115

Epidermal/dermal recombinants

used to study differential expression of mouse pigment genes: STEPHENSON & HORNBY 65

Extracellular matrix

modulation during caudal fin morphogenesis in Zebra fish: DANE & TUCKER 145

Fertilization

sequence and regulation of first cell cycle in mouse embryo: HOWLETT & BOLTON 175

Fin fold

morphogenesis in Zebra fish: DANE & TUCKER 145

Follicular monolayers

adhesiveness of mouse primordial germ cells: DE FELICI & SIRACUSA 87

Fruiting

in *Dictyostelium* is affected by pH: BONNER, HAY, JOHN & SUTHERS 207

***fused*⁻**

development of *Drosophila* embryos: MARTINEZ-ARIAS 99

Genetic polymorphism

in binding of *Dolichos* lectin in mice: PONDER, FESTING & WILKINSON 229

Glycosyltransferases

allelic patterns of binding of *Dolichos* lectins in mice strains: PONDER, FESTING & WILKINSON 229

Gradient

of pH affects fruiting and slug orientation in *Dictyostelium*: BONNER, HAY, JOHN & SUTHERS 207

Homarus americanus

polyneuronal innervation of adult and embryonic muscle: GOVIND, STEPHENS & EISEN 13

Homoeotic genes

of *Drosophila*: segment polarity mutants: MARTINEZ-ARIAS & INGHAM 129

Inbred mice

allelic patterns of binding of *Dolichos* lectin in tissues: PONDER, FESTING & WILKINSON 229

Innervation

polyneuronal in adult and embryonic lobster muscles: GOVIND, STEPHENS & EISEN 13

Intermediate filaments

during caudal fin morphogenesis in Zebra fish: DANE & TUCKER 145

In vitro

culture of rat embryos – serine metabolism: ROWE & KALAZIS 137

development of mouse blastocyst-derived embryonic stem cell lines: DOETSCHMAN and others 27

Lectin

allelic patterns of binding of *Dolichos* lectins in mice strains: PONDER, FESTING & WILKINSON 229

Lobster

polyneuronal innervation of adult and embryonic muscle: GOVIND, STEPHENS & EISEN 13

Mitosis

during ontogenesis of rat embryonic cranial neuromeres: TUCKETT, LIM & MORRISS-KAY 75

Monoclonal antibodies

used to study dynamics of tubulin structures *Xenopus* oogenesis: PALEČEK, HABROVÁ, HEVDÍDEK & ROMANOVSKÝ 75

Motoneurons

polyneuronal innervation of adult and embryonic lobster muscle: GOVIND, STEPHENS & EISEN 13

Mouse

embryo

abnormal development in pupoid foetus (*pf/pf*) mutants: FISHER & KOLLAR 47

cell interactions—role of saccharides in cell adhesion: RASTAN, THORPE, SCUDDER, BROWN, GOOI & FEIZI 115

expression of genes involved in pigment production: STEPHENSON & HORNBY 65

in vitro development of blastocyst-derived embryonic stem cell lines: DOETSCHMAN and others 27

sequence and regulation of the first cell cycle: HOWLETT & BOLTON 175

inbred strains

allelic patterns of binding of *Dolichos* lectin in tissues: PONDER, FESTING & WILKINSON 229

primordial germ cells

adhesiveness to follicular and Sertoli cell monolayers: DE FELICI & SIRACUSA 87

Muscle

lineage cells

isolated from ascidian embryos: MITA-MIYAZAWA, IKEGAMI & SATOH 1

polyneuronal innervation in adult and embryonic lobsters: GOVIND, STEPHENS & EISEN 13

Mutant

pupoid foetus (*pf/pf*)

abnormal skin development in mice: FISHER & KOLLAR 47

segment polarity of *Drosophila melanogaster*: MARTINEZ-ARIAS & INGHAM 129

fused—

in *Drosophila melanogaster*: MARTINEZ-ARIAS 99

Myocardium

formation *in vitro* from embryonic stem cells: DOETSCHMAN and others 27

Neural tube

ontogenesis in rat embryos: TUCKETT, LIM & MORRIS-KAY 215

Neuromeres

scanning electron microscope and kinetic study: TUCKETT, LIM & MORRIS-KAY 217

Neuromuscular synapses

polyneuronal innervation of adult and em-

bryonic lobster muscle: GOVIND, STEPHENS & EISEN 13

One-carbon metabolism

in rat embryos undergoing organogenesis: ROWE & KALAIZIS 137

Oogenesis

in *Xenopus laevis* — dynamics of tubulin structures: PALEČEK, HABROVÁ, NEDVÍDEK & ROMANOVSKÝ 75

Oral development

in ciliate *Stentor*: DE TERRA 241
DE TERRA 249

Pattern duplications

in *fused*— embryos of *Drosophila melanogaster*: MARTINEZ-ARIAS 99

in segment polarity mutants of *Drosophila melanogaster*: MARTINEZ-ARIAS & INGHAM 129

***pf/pf* (pupoid foetus) mutant**

abnormal skin development in mice: FISHER & KOLLAR 47

pH

affect on fruiting and slug orientation in *Dictyostelium*: BONNER, HAY, JOHN & SUTHERS 209

Pink-eyed dilution

expression of mouse genes involved in pigment production: STEPHENSON & HORNBY 65

Polarity

reversed in segment polarity mutants of *Drosophila melanogaster*: MARTINEZ-ARIAS & INGHAM 129

Poly-N-acetyllactosamines

evidence for involvement in cell interactions in mouse embryos: RASTAN, THORPE, SCUDDER, BROWN, GOOI & FEIZI 115

Polyneuronal innervation

of adult and embryonic lobster muscle: GOVIND, STEPHENS & EISEN 13

Polypeptide synthesis

sequence and regulation in first cell cycle in mouse embryo: HOWLETT & BOLTON 175

Positional signalling

maps of strength in chick wing bud: HONIG & SUMMERBELL 163

Primordial germ cells

adhesiveness to mouse follicular and Sertoli cell monolayers: DE FELICI & SIRACUSA 87

Pronuclei

sequence and regulation of first cell cycle in mouse embryo: HOWLETT & BOLTON 175

Rat

embryo

ontogenesis of cranial neuromeres – SEM and kinetics: TUCKETT, LIM & MORRISKAY 215

serine metabolism during morphogenesis: ROWE & KALAZIS 137

Sash (W^{sh})

expression of mouse genes involved in pigment production: STEPHENSON & HORNBY 65

Segment polarity mutants

of *Drosophila melanogaster*: MARTINEZ-ARIAS & INGHAM 129

Serine metabolism

in rat embryos undergoing organogenesis: ROWE & KALAZIS 137

Sertoli cells

adhesiveness of mouse primordial germ cells to monolayers: DE FELICI & SIRACUSA 87

Skin

development in pupoid foetus (*pf/pf*) mouse mutants: FISHER & KOLLAR 47

Slug orientation

in *Dictyostelium* is affected by pH: BONNER, HAY, JOHN & SUTHERS 207

Stentor

basal body assembly and oral development in *Stentor*: DE TERRA 249

inhibition of oral development: DE TERRA 241

Tissue morphogenesis

during caudal fin development in Zebra fish: DANE & TUCKER 145

Tissue-specific

enzyme development in muscle cells isolated from ascidian embryos: MITA-MIYAZAWA, IKEGAMI & SATOH 1

Tubulin

dynamics of structures in *Xenopus laevis* oogenesis: PALEČEK, HABROVÁ, NEDVÍDEK & ROMANOVSKÝ 75

Visceral yolk sac

formation *in vitro* from embryonic stem cells: DOETSCHMAN and others 27

Vitellogenesis

in *Xenopus laevis* – dynamics of tubulin structures: PALEČEK, HABROVÁ, NEDVÍDEK & ROMANOVSKÝ 75

Wing bud

chick

maps of strength of positional signalling activity: HONIG & SUMMERBELL 163

Xenopus laevis

oogenesis

dynamics of tubulin structures: PALEČEK, HABROVÁ, NEDVÍDEK & ROMANOVSKÝ 75

Zebra fish

Brachydanio rerio – caudal fin morphogenesis: DANE & TUCKER 145

Zone of polarizing activity

in developing chick wing bud: HONIG & SUMMERBELL 163
